

Project Implementation and Final Report

1. Introduction

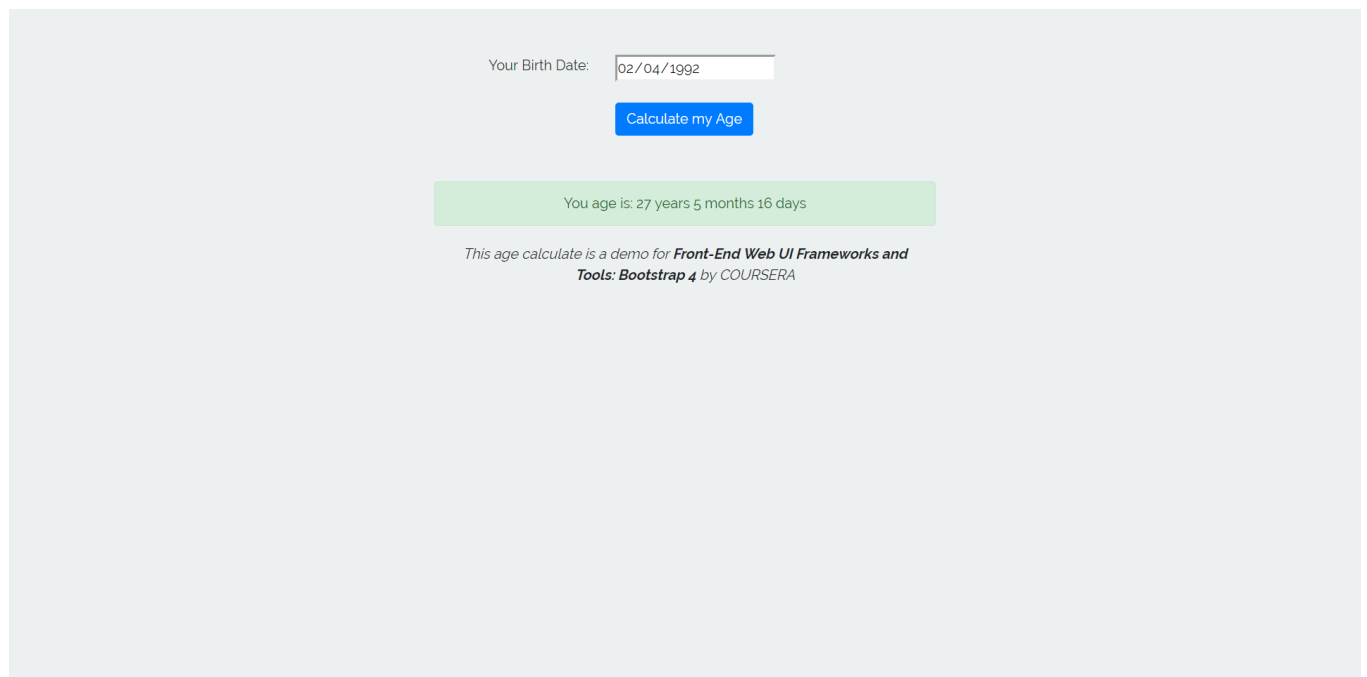

This website will calculate a person or anything age.

2. Design and Implementation

This UI or Prototype is very simple. Just enter your birth date and click “Calculate my Age” button. It’s simple! It will show you your age with years, months and days.

The screenshot displays a web application for calculating age. It features a light gray background. At the top, the text "Your Birth Date:" is followed by a text input field containing "02/04/1992". Below the input field is a blue button with the text "Calculate my Age". Underneath the button is a light green rectangular box containing the text "You age is: 27 years 5 months 16 days". At the bottom of the interface, there is a line of small text that reads: "This age calculate is a demo for **Front-End Web UI Frameworks and Tools: Bootstrap 4** by COURSERA".
